Town Warrant

(L. s.) THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of North Hampton in the County of Rockingham, in said State, qualified to vote in Town affairs:

You are hereby notified to meet at the Town House in said North Hampton, on Tuesday, the eighth day of March next, at one of the clock in the afternoon, to act upon the following subjects:

1. To choose all necessary town officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and to make appropriations for the same.
3. To see what action the town will take regarding accepting State Aid for roads.
4. To see what action the town will take in regard to repairing the sea wall on the South side of Little Boars Head, near the residence of Mary B. Frost, and appropriate money for the same.
5. To see if the town will appropriate \$579.38 to meet the under appropriation of 1920, made for the purpose of building a Receiving Tomb.
6. To transact all other business that may legally come before the meeting.
7. To see what action the town will take in regard to purchasing a stone crusher, tractor or any other road machinery which may be required for the use of the highway department in the Town of North Hampton, and appropriate money for the same.

Given under our hands and seal, this fifth day of February, in the year of our Lord nineteen hundred and twenty-one.

IRVING W. MARSTON,
JAMES F. HOBBS, Jr.
LESLIE L. LOVETT,
Selectmen of North Hampton.

A true copy of warrant—Attest:

IRVING W. MARSTON,
JAMES F. HOBBS, Jr.
LESLIE L. LOVETT,
Selectmen of North Hampton.

Report of Trustees of Public Library

NORTH HAMPTON, N. H., February 12, 1921.

During the past year we have purchased 63 new books, of which 41 were fiction. The number of volumes in the library is now about 2,570, of which about 1,430 are fiction. Four magazines: Harpers', Scribners', Century and St. Nicholas' have been provided for the reading room.

The contract has recently been let for building the two new bookstacks mentioned in last year's report and this change will necessitate a re-arrangement of the electric lighting. The expense of this improvement will be provided for in our new budget.

The Library expenses for the past year are given below:

Salary of Librarian.....	\$100.00
New books.....	104.64
Magazines.....	20.00
Lighting.....	15.00
Miscellaneous.....	5.93
	<hr/>
	\$245.57
Received from sale of old magazines.....	6.00
	<hr/>
	\$239.57

We estimate the ordinary running expenses for the coming year as follows:

Salary of Librarian.....	\$100.00
Fuel and lighting.....	55.00
New books.....	115.00
Magazines.....	15.00
Miscellaneous.....	15.00
	<hr/>
	\$300.00
Add estimate for permanent improvements	200.00
	<hr/>
Total.....	\$500.00

We therefore recommend that the above sum of \$500 be raised for the ordinary running expenses and the permanent improvements.

EDWARD M. SMITH,
FRED L. DOW,
ADA E. MOUTLON,

Trustees.

School Report

To the Citizens of North Hampton:

At a meeting in May, Mr. C. H. Walker was re-elected superintendent of schools for this Union.

We re-elected the same teachers at the Centre school as last year. Mrs. Lena Smith has charge of the Junior High room, Miss Mabel Philbrook, the Intermediate room, and Miss Helen Thompson, the Primary room. It was voted at our last district meeting to employ two teachers at the East school. Mrs. Lila Drew has charge of the Primary room, and Miss Esther Baker, the Intermediate room. We believe that better results are obtained by employing two teachers, as the pupils have more individual instruction. It was necessary for us to purchase a new stove, blackboard, and teacher's desk in order to open the second room. The room was painted and the necessary repairs made.

The flag pole at the Centre became weak and was blown down by the winds. It will be necessary to appropriate money for a new pole at our next district meeting.

It was voted at our last district meeting to pay the tuition of pupils attending Newburyport High school. We later found that it was an illegal vote, for according to the school laws, High school tuition cannot be paid outside of the State.

It is necessary for us to make certain changes in our schools from time to time to meet the requirements of the State Board of Education.

We ask for co-operation in managing our school, for with co-operation comes success.

AUSTIN J. NORTON,
NELLIE F. DRAKE,
ARTHUR A. BROWN,

School Board of North Hampton.

Report of Superintendent of Schools

To the North Hampton School Board:

I have the honor to submit my third annual report as superintendent of schools. The reports of your supervisor of music and school physician are made a part of this report and merit your careful reading and I have tabulated school statistics which will prove interesting to all citizens no doubt, as well as to the board.

WORK OF THE YEAR

After a careful analysis of the scores made in the different grades in the *standard* tests that I gave last spring and comparing the results with *standard* scores for all the different grades, I find our grades fall below the *standard* scores in some subjects, more particularly in Reading and Composition, whereas they about equal or excel the *standard* scores in other subjects, more frequently in Writing, Spelling and the four fundamentals of Arithmetic. This failure in the Reading and Composition, judging from the scores attained, appears to be quite uniform throughout all grades; middle and upper grades, as well as in the Primary grades. In Composition, almost every grade is below the standard for that grade, and so our teachers this year must give much more consistent drill in this subject. This should be done by requiring more of both oral and written composition and seeing to it that there is steady improvement in the quality of the same. In Reading, practically all grades are below normal in both the factors of speed or rate of reading and also in comprehension. This indicates we must give much more attention to the teaching of Reading in North Hampton, in order to increase the speed or rate of reading and also

to raise the factor of comprehension, wherever they are below standard. At the East school, the scores obtained for all grades was below normal, in both multiplication and division, and so, much more drill in these processes must be given to raise the standard of achievement. With these exceptions I feel that our teachers last year, for the most part, did some very effective teaching.

One thing with which I am much pleased, is the fact that of all the number of pupils who failed of promotion, which was 11, (See table of Promotion and Retardation), 8 of those who were retarded, were in the first three grades. This is a common or expected condition. Under normal conditions the greatest amount of retardation takes place in the first two or three grades, due to several reasons, as immaturity, or poor attendance, because of bad storms or illness. The second most frequent point of retardation usually is in grades 6 and 7 due to the fact that some few pupils invariably reach about the limit of their ability in these grades. The total amount of retardation was only 13 % plus, which I consider an excellent showing. In some of the other districts of this Union we did not make as good a record in this respect and the greatest amount of retardation occurred in grades, where it should not have occurred. This resulted probably, because some teachers did not give the attention that was essential, to a few individual pupils, in order to bring them up to grade. Our teachers must see that this is done, as retardation means more expensive education for the school district, to say nothing of the handicap to pupils severally and individually.

ATTENDANCE

The per cent of attendance was 90.2 per cent or about the same as it was the previous year, which was 90.64 per cent. The number of cases of tardiness last year increased from 236 of the year before to 280, an increase of 18 % plus. Granted, that we had an extremely severe winter last year, yet it does not seem that our pupils

should have failed so in the matter of promptness. This year we have made a much better record with respect to attendance and tardiness, up to date, due to the excellent weather conditions. I again wish to urge all parents to co-operate to the fullest extent possible to make a good record with respect to both attendance and tardiness, as both are vitally important factors in increasing the morale of any school, which makes for successful school work.

TEACHERS

We were fortunate to retain all our teachers who were with us last year, with the exception of Miss Greta Myers, at the East school, who resigned to accept a better position. We were disappointed to lose her as she had done good work for us. At the last district meeting it was voted, for the board to fix up the spare room at the East school and to engage another teacher in order to keep all six grades in that school. This was done, and Miss Esther L. Baker was engaged as principal of the building to teach grades 4, 5 and 6 and Mrs. Lila M. Drew to teach grades 1, 2 and 3. The present organization of the work there could hardly be better, however the expense of these two schools is very large when we consider the cost per pupil of average membership, since there are only 11 pupils in one room and only 8 in the other. In my opinion, one strong teacher can do entirely efficient work with all the pupils there, in as many as four or five grades. However, this would mean the transportation of the sixth grade and possibly the fifth grade to the Centre school, and I realize the people in that section of the town are quite opposed to this.

All our teachers are thoroughly efficient in their respective positions. In fact, I believe our corps of teachers this year is fully as strong in all respects as that of last year, and stronger in some respects. Their scholarship is excellent and their understanding and practice of the most recent investigations of correct pedagogical practice is very good, considering their professional training and

experience. They have taken kindly any criticisms or suggestions I have offered and there is a fine spirit of co-operation among them. All they need is strong backing by all school officials and by all our people in general.

SCHOOL BUILDINGS

In my report of last year and the previous year I pointed out many of the defects in our present school plant, and so will only refer you to those sections for further consideration.

MEDICAL INSPECTION

A careful study of Dr. Fernald's report of the physical examination of last year will no doubt surprise many parents. Few perhaps could have realized the poor physical condition among so many of our children. I am very sorry that I have not as yet received the results of the examination for this present year. The real test will come when we are able to check up the number of defects that have been remedied as a result of the cards sent to parents. From the report here published it appears that defective teeth is the most frequent defect, and indicates that an active campaign of dental education is imperative in all our schools and homes. Besides, it shows the great need of a dental clinic for a town like North Hampton and also the benefits that would result physically and therefore educationally, if we were only able to have the services or part time services of a district nurse for "follow up work" in the homes of the community. This work of a district nurse is fully, if not more important, than merely the physical examination.

SCHOOL COSTS

One thing, which I believe will be interesting to you is the comparison of costs of schools in the different districts of this Union for last year. I have computed the same on the basis of cost per pupil of average membership.

Cost per pupil of average membership:

Newington.....	\$33.97
Newcastle.....	30.75
Rye.....	46.24
North Hampton.....	68.81
Hampton.....	47.93
Hampton Falls.....	48.24
Seabrook.....	35.28
For the State.....	59.71

These figures were obtained by omitting extraordinary payments, such as for repairs, remodeling, etc., and counting only the necessary running expenses of the schools. They illustrate to a certain extent the business efficiency of the management of all our schools, by the different school boards, at a time when all school costs have been mounting rapidly. You will note that the cost per pupil of average membership for North Hampton is greater than for any other district in the Union and also about \$9.00 per pupil more than for the State as a whole. This does not necessarily mean poorer management however, since we must take into consideration the efficiency of the service rendered as well as the figures. The principal reason for this greater cost of our schools is the fact that we have very many less pupils per teacher than in the other districts, which should mean that we are getting better service than they are. However, it may be well for the board to consider how we may reduce our expenses, without impairing the service rendered to the district.

In closing, I wish to thank the Board for their advice and loyal support, and also the teachers, parents and pupils for their co-operation in the interests of the schools.

Respectfully submitted,

C. H. WALKER.

February 8, 1921.

A. M. FERNALD, M. D.

Mr. C. H. Walker,
Supt. of Schools,
North Hampton, N. H.

DEAR SIR:—

The time has come for me to submit my fourth annual report of the music in North Hampton.

The work has been carried on as usual—the results in the different rooms varying with the application and ability of the pupils.

Perhaps it may be well to give a brief outline of the work as it is given in the grades. Very few of the little people who come to us in the first grade can sing a song correctly and independently, while some have never sung at all. Our first aim, therefore, is to get them all singing by songs which appeal not only in music, but in words. In a few months the majority of children can with some assistance sing a number of songs correctly. The so-called monotones who can not sing in unison with the others must be given more individual help. No matter how stubborn the case may be, I am confident that with the proper training and encouragement, provided the child's ears and throat are normal, he will sing correctly. If parents and teachers only realized how much encouragement helped these children who find it hard to sing at first, we could get them singing quicker than we do.

In the second grade rote songs are continued. Notation is first presented through an already familiar song. Ear and eye training is given and some sight reading taken up.

Rote songs are carried on to the third grade and sight reading is given more attention. In these grades motion and action songs are taught, not only to arouse the children's interest, but also to help them have better rhythm and to be more graceful.

As they go on to the fourth grade more technical work is taken up. This continues through the fifth and sixth grades, so that when the children enter the junior high

they are familiar with practically every problem which comes up in their music. In the fifth and sixth grades two and three part music is taught. Of course time and tone drills are given.

In the seventh and eighth grades two and three part work is studied. We studied the lives of some of the most famous composers, so that the pupils might know something about each one, for what particular kind of music they were noted and also the names of several of their best known works. This we did through the supervisor telling the stories of their lives and pupils bringing in what they could find of interest in outside books.

We are very glad to have the Junior Song and Chorus Book in our junior high. In a room where there are two grades it is best to have two sets of books so that the pupils of the eighth grade will not have to repeat the work of the year before.

I wish to thank those teachers who have co-operated with me in carrying out the work which I have left, and all others who have shown interest.

Respectfully submitted,

HELEN C. JOHNSON,

Supervisor of Music.

January, 1921.
